Subject: RE: Time, Night Differential along with Overtime

Hi Mike,

I'm happy to field the question. Would you mind responding back with the type of schedule you work, when your regular tour of duty began and ended, when the overtime was actually assigned to you to work, and any other relevant information please?

I don't know if you are allowed night differential but...
FYI, if you enter night differential on the timecard, you need to enter the overtime as OTINS.

Mike

You may want to contact Tony Clifton for any further clarification

Thanks

John

Donna

I will remove the night differential for September 6th, per our conversation with Verne and Marilyn.

However, this OPM link does say that "Night pay is paid in addition to overtime, Sunday, or holiday premium pay."

<https://www.opm.gov/policy-data-oversight/pay-leave/pay-administration/fact-sheets/night-pay-for-general-schedule-employees/>

John: Can I suggest that we look into this further?

This refers to September 6th when I worked overtime from 3:45pm until 6:45pm doing work related to Hurricane Harvey.

Hi, Michael,

John Spelman said that you don't qualify for a night differential. Would you change your timecard for 9-6-17?

Thank you,
Donna Schumacher
